## Gorgeous Chocolates, Safe for All!

New to IFE this year, **No Nuts...just Chocolate** presents the allergy-friendly range of gourmet hand-made chocolates from Dammenberg, Finland. Launched in 2008 by Dr Samantha Thompson, the Cambridge-based company is the exclusive distributor of Dammenberg Chocolates to the UK and Ireland.

Dr Thompson explains why she chose to sell the Finnish range above all others:

“Dammenberg was the first European chocolate manufacturer to produce in a nut-free and gluten-free environment, and their entire range is also egg-free, Kosher and vegetarian, with additional lines that are milk-free (vegan), lactose-free, soya-free, sugar-free and fair trade. It's the best selection on the market for those who have to be watchful of ingredients and what's more, the chocolates really are delicious.”

Exhibiting for the first time at IFE09 on Stand N1820 of the Health & Well Being section, **No Nuts...just Chocolate** will be showcasing their exciting range, including newly launched fair trade and milk-free filled chocolates. The range includes gift boxes, children's novelties, seasonal and everyday treats; with bespoke and own label products available.

There is no minimum order and prices start from just over £20 for a single unit of 10 boxes of chocolate buttons, making it easy for retailers to try this innovative range for themselves. <ENDS>
